Treatment and Prevention of COVID-19

for Eligible High-Risk Persons

Did you just test positive for COVID-19?

Treatment is available for persons who are at *high risk for severe disease*. The blue box below lists some of the reasons a person may be at high risk. Talk with a healthcare provider to find out if you are eligible for treatment.

NOTE: Age and weight requirements may be different for each treatment.

- Recently tested positive for COVID-19 and are experiencing mild to moderate COVID-19 symptoms, AND
- Are in one or more of the following **HIGH-RISK CATEGORIES** for progression to hospitalization or death:
 - Obesity or overweight
 - Older age (65 years and older)
 - Pregnancy, diabetes, chronic kidney disease, weakened immune system, mental health conditions, heart disease, high blood pressure and certain lung diseases, such as COPD and moderate/severe asthma
 - Other medical conditions/factors, including race/ethnicity, that may place patients at higher risk
 - Black/African American, Hispanic/Latino/a/Latinx, other persons of color should speak to their medical provider
 - See the CDC website for a full list: People with Certain Medical Conditions | CDC

Do you have a weakened immune system?

If you do *not* have COVID-19 and have *not* been exposed to COVID-19, you may be eligible to get Evusheld to help prevent infection. You may also be eligible if you cannot be vaccinated. Talk with a healthcare provider to find out if you are eligible for Evusheld.

Where can I go for treatment?

- Test-to-Treat sites: See <u>COVID-19 Test to Treat Locator English (arcgis.com)</u>
- Your healthcare provider/system, community clinics, retail pharmacies.
- For treatments that require an IV or an injection, some patients may be referred by a healthcare provider to an infusion center.
- You can also complete a self-referral form for monoclonal antibody therapy, which is one type of treatment, at the links below:
 - o *Total Infusion:* https://totalinfusion.com/make-a-referral/
 - UCSF: <u>UCSF External Self or Provider Referral for COVID-19 Monoclonal Antibody Outpatient</u> <u>Treatment (PDF)</u>
 - Stanford Medical Center, Palo Alto: Contact <u>DL-SHC-Pharmacy-COVID@stanfordhealthcare.org</u> or call (650) 391-8503. <u>COVID-19 Monoclonal Antibody</u>
