Local COVID-19 Data

CASES & DEATHS

By Gender, Race/Ethnicity, Age Group, Jurisdiction, and Over Time [Mobile version](#)

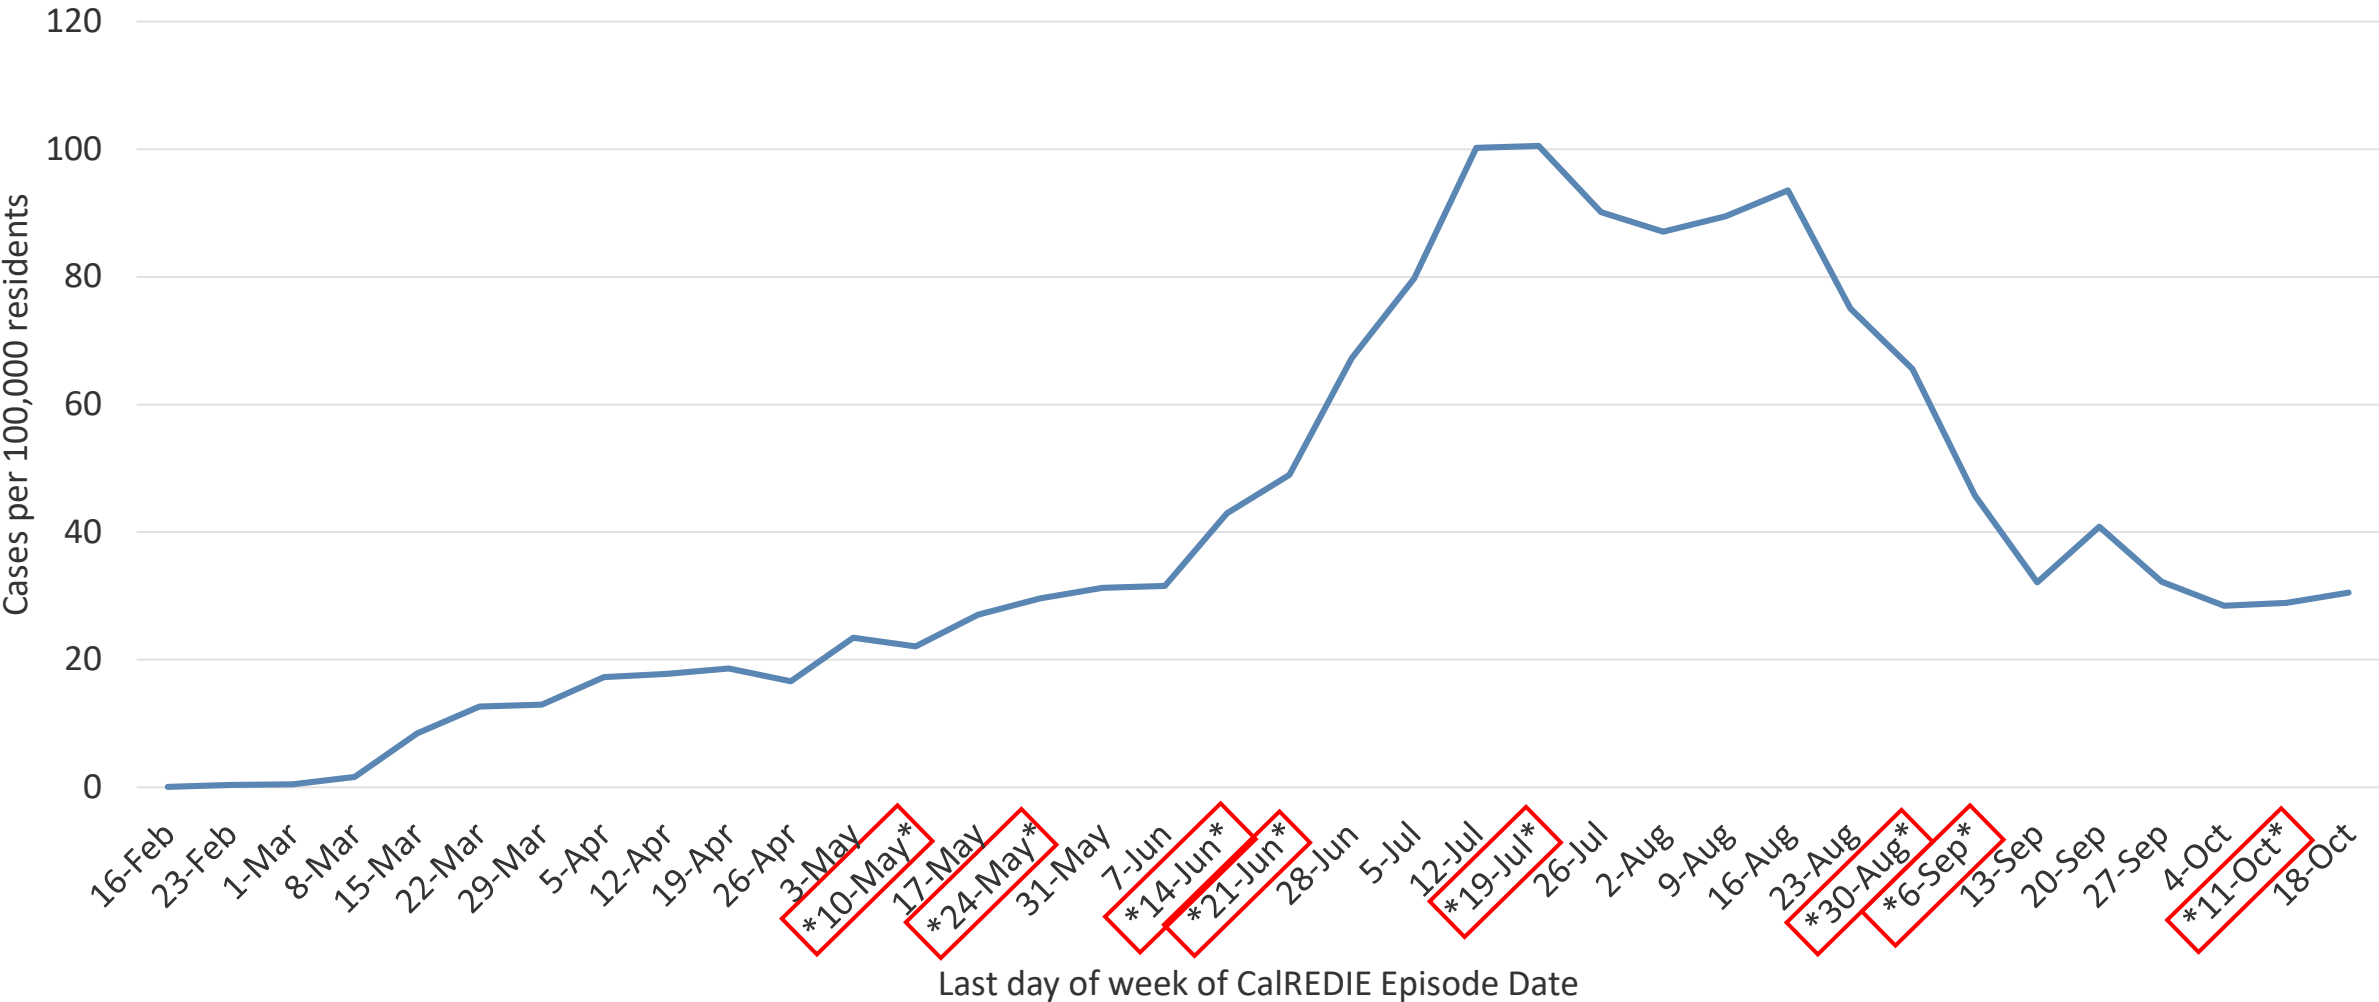

Notes and disclaimers: The City of Berkeley and Alameda County (minus Berkeley) are separate local health jurisdictions (LHJs). We are showing data for each separately and together. The numbers for the Alameda County LHJ and the Berkeley LHJ come from the state's communicable disease tracking database, CalREDIE. These data are updated daily, with cases sometimes reassigned to other LHJs and sometimes changed from a suspected to a confirmed case, so counts for a particular date in the past may change as information is updated in CalREDIE. Case dates reflect the date created in CalREDIE. The time lag between the date of death and the date of entry into CalREDIE has sometimes been one week; the date of death is what is reflected here, and so death counts

Alameda County Shelter in Place Order

- We are Monitoring **metrics to ensure stability**
- We have **phased reopening plan** that balances increased risk of spread of COVID-19 from newly permitted activities alongside appropriate mitigation strategies

Schools Update

Schools Reopening

- Elementary schools permitted to resume in-person education 10/13
- Middle and High School reopening anticipated 4-12 weeks later
- Key Factors
 - County case rate, test positivity, and overall numbers of students and staff
- Other Permitted In-Person Educational Activities
 - Juvenile detention, psychiatric facility and crisis housing education
 - Students with individualized education plans.
 - Testing and Assessment
 - Small cohorts for distance learning, etc

Schools Guidance

- ACOE/HCSA requiring reopening plans
 - In-depth review not required
- Daily health screenings
- Small, stable cohorts of students
- Face coverings and physical distance
- Controlled movement within schools
- Regular cleaning and maximize fresh air
- Work with ACPHD on contact tracing
