Agenda

1. Data
2. Re-opening/Blueprint
3. Vaccine Updates
4. Outreach & Communications

1. Data

Alameda County COVID-19 Epidemic Key Points

- Daily case rate is 4.9 per 100,000
 - Adjusted Case Rate is 3.6
 - Between 70 and 140 cases reported daily over past 10 days (stable)
- Test positivity 1.4%
 - 2.4% in lowest HPI quartile
- Hospitalized COVID cases 77; ICU 21
- Testing 8,000-8,500 per day
- National picture stabilizing
 - Vaccine having beneficial effects

2. Reopening/Blueprint

Reopening Update

- AC in Orange Tier for the time being
- More activities open, more people vaccinated but COVID-19 risk remains
- We all must continue the actions which slow the spread of COVID-19
 - Follow distancing and Blueprint requirements
 - Wear face coverings
 - Wash hands
 - Stay home when sick
 - Make health choices
 - Get vaccinated

3. Vaccine Updates

Johnson & Johnson (Janssen) Vaccine Pause Lifted

FOR IMMEDIATE RELEASE:

Sunday, April 25, 2021

Joint Statement of the Bay Area Health Officers on the Safe Administration of the Johnson & Johnson Vaccine

On Friday, April 23rd, the CDC and FDA announced they would accept the Advisory Committee on Immunization Practices' (ACIP) recommendations to lift pausing on the Johnson & Johnson COVID-19 vaccine for all adults. The Bay Area Health Officers, representing the counties of Alameda, Contra Costa, Marin, Napa, San Francisco, Santa Clara, Santa Cruz, and Solano and the City of Berkeley, concur with the findings of the ACIP and Western States Scientific Safety Review (WSSSR) that the Johnson & Johnson vaccine is safe and that Bay Area health providers should resume its administration to prevent community spread and severe illness and death from COVID-19.

The region's Health Officers agree that the risk of developing the rare clotting disorder is extremely low. According to the CDC, to date there have been only 15 confirmed cases of the rare clotting event among nearly 8 million total doses administered in the USA, all in females, which translates to a risk less than 2 cases per million doses overall, and 7 cases per million doses among women between 18 and 49 years of age. For those who have a confirmed case of COVID-19, the risk of dying from it in the United States is 1 in 56.

The region's Health Officers also support the addition of a warning label and the WSSSR's recommendation that culturally and linguistically appropriate informational materials in an accessible reading level be made available, so that members of the public can make an informed decision.

The public is strongly urged to get vaccinated as soon as possible. All vaccines are proven to be highly effective at preventing hospitalization or death from COVID-19, and people who are fully vaccinated are also much less likely to be contagious or transmit the virus to someone else. The

- CDC's Advisory Committee on Immunization Practices (ACIP) recommends resuming use of J&J
 - Benefits outweigh very low risk of clotting
 - Warning statement required
- CDC and FDA ended national pause
- CDPH and Western States Scientific Safety Review adopted the change
 - CDPH requiring patient education
- Association of Bay Area Health Officials released statement in support

J&J Use in Alameda County

- Resuming this week at most County sites
 - Will distribute CDPH educational materials
 - Multiple language options in development
 - Stakeholder educational outreach ongoing
- Vaccination program for homebound persons can resume
- As before, residents can see vaccine type when scheduling appointments

**AVAILABLE TODAY
VACCINE APPOINTMENTS
AT THE COLISEUM**

ALAMEDA COUNTY HEALTH CARE SERVICES AGENCY @Dare2BWell

10:15 AM · Apr 22, 2021 · Health

- Currently vaccinating 2,000-4,000 people/day
 - Last week some appointments went unfilled
- 4-week extension of CalOES deployment concludes 5/9
- State will match vaccine supply and retain contracts to support continuation of site operations after 5/9
- HCSA proposes transition of operations to Carbon Health beginning 5/10
 - Proposed contract to come before your Board 5/4
 - On-site collaboration to support potential transition occurring now
 - Week of 5/10 would be Carbon soft launch

Coliseum Mobiles

- Two mobiles everyday through 5/9 at Alameda County partner sites
- Serving 400-700 Alameda County residents/day
- Sites for this week: Support Life – Fremont, Glad Tidings Church, La Familia, St. Bernard's Parish, True Vine Ministries
- Mobiles will be administering Pfizer, requiring second doses beyond the 5/9 conclusion of the CalOES deployment
 - HCSA proposing partnership with Bay Area Community Health, Lifelong Medical Care, Native American Health Center, and La Familia for 2nd dose clinics 5/10-23
 - Proposed contracts to come before your board on 5/4
- Community vaccine access to continue through County Pop-Ups and Community Pods

Coliseum Pedestrian Village

Alameda County Health Care Services Agency
@Dare2BWell

Important things to know about appointments at
[@RingCentralColi](#) & [@OaklandArena](#) Community
Vaccination Center:

[@SFBART](#), pedestrian and [@rideact](#) access to the
Coliseum is currently closed.

Drive-through appointments remain open and are
accessible by a motor vehicle.

- Pedestrian Village has been underutilized since inception and is resource intensive
 - Since 4/12, 250-350 people per day have received vaccination at Pedestrian Village
- New appointments suspended 4/19 through 5/2 due to J&J pause
- 2nd dose clinics to resume 5/3 through 5/9
 - MyTurn sends SMS reminders 24 hrs in advance
 - Requested list from CalOES
 - Social media posts to reinforce
- Pedestrian Village to be deactivated 5/10

Latest Updates

Following a thorough safety review, the CDC and FDA have determined that the recommended pause regarding the use of the Johnson & Johnson (Janssen) COVID-19 Vaccine in the U.S. should be lifted and use of the vaccine should resume.

Alameda County and City of Berkeley will align with other Bay Area counties and will plan to resume the use of our modest, existing supply of the Johnson & Johnson vaccine as quickly as possible.

Health care providers administering the vaccine and vaccine recipients or caregivers should review the [Janssen COVID-19 Vaccine Fact Sheet for Healthcare Providers Administering Vaccine \(Vaccination Providers\)](#) and [Fact Sheet for Recipients and Caregivers](#), which have been revised to include information about the risk of this syndrome, which has occurred in a very small number of people who have received the Janssen COVID-19 Vaccine.

If you received the Johnson & Johnson (Janssen) COVID-19 Vaccine within the past three weeks, seek medical care right away if you develop severe headache, backache, blurred vision, fainting, seizures, severe pain in your abdomen, stomach, or chest, leg pain, leg swelling, shortness of breath, tiny red spots on the skin (petechiae), or new or easy bruising or bleeding.

- Alameda County Residents Ages 16+ can [be notified when appointments are available for a COVID-19 vaccine](#).
- [CDPH COVID-19 Public Health Recommendations for Fully Vaccinated People \(4/15/21\)](#)

We are currently soliciting feedback on language and cultural accessibility from our community messengers: CDPH fact sheet and additional resources
