Presentation Overview

• Local COVID-19 Epidemic
• Shelter in Place
• COVID-19 Variants
• Vaccine Update
Alameda County COVID-19 Epidemic

• Daily case rate is 22 per 100,000 and falling
  • Adjusted Case Rate is 18 (Purple Tier)
  • From 250 to 500 cases reported daily over past 10 days

• Overall test positivity 5%
  • 7.9% in lowest HPI quartile

• Hospitalized COVID cases 279 and falling
  • 88 in ICU

• Expect more surges in 2021
  • Goal still to flatten the curve, slow the spread and protect health care system
  • As vaccine rates and immunity rises, surges will wane
Alameda County Shelter in Place

• Currently in Purple Tier
  • Timeline for Red Tier uncertain – likely weeks
• Supreme Court ordered State to allow indoor worship on 2/5
  • Can be limited to 25% of capacity
• K-6 schools with approved safety plan could open as of 2/5
  • State school guidance in effect for Alameda County
  • Vaccination of staff and students not required for safe school operations
Alameda County COVID-19 Variants

• AC investigating all reports of CDC variants of concern
• 7 known UK variant cases to date
  • All appear to be travel related
• No known South Africa or Brazil variants reported here yet
• West Coast variant has been detected here; over 1000 reported across CA
• No changes to local prevention and vaccine policy related to variants
  • FDA: Pfizer and Moderna vax should be effective against these variants
  • Diligent use of face coverings and physical distancing the most important measure
  • Continue to vaccinate as fast as supply allows
Vaccines
Alameda County in Phase 1b

Alameda County is now vaccinating:
- Health Care Workers
- People in Long Term Care Facilities
- People ages 65+
- Food/Agriculture/Restaurant/Grocery workers
- Emergency Services workers
- Education/Childcare workers

Within each category, prioritizing:
- Older adults
- MediCal or Uninsured
- Areas with very high COVID-19 case rates (HPI Q1 + priority zip codes)
- People with direct contact with clients or the public at work
- People who cannot work from home
- People with limited mobility

Appointments by invitation
Sign up for notification: https://covid-19.acgov.org/vaccines
Why are we doing this all at once?

• The State has opened all of Phase 1b, Tier 1
• We are committed to equitable vaccine distribution across Alameda County and this strategy serves both
  • people who are at high risk for severe illness or death
  • people who are at high risk for transmission because of where they live or work
• Moving sequentially rather than concurrently through the phases would mean we couldn’t reach essential workers and high-risk settings for many months
• Public health data support this approach
  • Older adults account for the majority of COVID-related deaths
  • The food and agriculture sector has had high transmission rates and includes many frontline workers from communities disproportionately affected by COVID-19
  • Grocery stores have recently been identified as a source of transmission for older adults
  • People who are incarcerated are at high risk for transmission and often come from communities bearing a disproportionate burden of COVID-19
Communities with disproportionate COVID-19 impacts

Healthy Places Index (HPI)
- Composite measure of the impact of socioeconomic factors on the health of an area (e.g. housing, income, education, built environment, transportation, access to care)
- Quartile 1 = less healthy conditions
- Quartile 4 = more healthy conditions

Zip codes with highest case rates
- Ashland/Cherryland - 94578, 94541, 94580
- East Oakland - 94621, 94603
- San Antonio/Fruitvale - 94606, 94601
- So. Hayward - 94544
- West Oakland - 94607
Alameda County Vaccination Strategy

Community

Health Care Partners

Community Health Centers

Hospitals

Independent Providers

Pharmacies

Other

Planned: Alameda County Fairgrounds + new Coliseum partnership
Expected Launch: mid-February
Fairgrounds Health Care Partners: Sutter, Stanford ValleyCare
Scale: ~5000 – 6000 doses per day/POD

Current: St. Rose Hospital, Castro Valley Library; OUSD/s Fremont HS
Planned: in a total of 6 communities with disproportionate COVID-19 burden; Healthy Places Index Quartile 1
Scale: ~600 – 2000 doses per day/POD

Community Health Clinic Network; ROOTS; Davis Street
All vaccinating staff and their own clients
CHCN partnering with Alameda Alliance for Health for IHSS and Medicaid recipients

Hospital staff vaccinations @ ~70%
Paused for additional vaccinations due to surge

Unaffiliated providers; dentists; private practice

Federal partnerships
Private pharmacies visiting high-risk congregate settings

Under consideration
Mega PODs

Oakland-Coliseum
• Shift from Kaiser/Sutter/County collaboration to Federal/State/Local collaboration
• Launch expected 2/16/21
• Capacity of 6,000 doses/day in addition to county’s existing allocation

Fairground
• Moving forward with Stanford Health Care & Sutter
• Launch expected 2/15/21
Community PODs

Fremont High School
- Launched 2/4/21
- Open Th-S, 8am to 6pm
- Partnership with OUSD
- 640 doses per day
- Focused outreach
- Appointments by invite

Fire Pop-Ups
- Active in South Hayward and East Oakland
- Partnership with Fire Incident Management Team and La Clinica, La Familia, & Tiburcio Vasquez
- ~1000 doses per week
- Available through February
- Appointments by invite

Buchanan Parking @ Golden Gate Fields

Next areas of focus
- Deep East Oakland
- Ashland/Cherryland

VACCINATION DATA

By Gender, Age Group, Race/Ethnicity, Place, and Over Time  Mobile version

Alameda County COVID-19 Vaccination Dashboard

Data Source: CAIR
Updated daily
Shows Alameda County residents that have been vaccinated
Key Takeaways

• Vaccine supply remains limited and it will take a while to get through this phase
• We ask people who don’t fall into Phase 1a or Phase 1b Tier 1 to please be patient and sign up for a notification
• Vaccine will be available in multiple places and appointments at County PODs remain by invite only at this time
• To ensure equitable distribution of vaccine, County PODs will prioritize appointments for people who are
  • over age 65;
  • do not have insurance or have MediCal;
  • are from communities bearing a disproportionate impact of COVID-19 cases; and/or
  • are at high risk because of where they live or work
Thank you
