

Welcome Back to School!

Follow some simple steps to keep our kids safe.
Together we can slow the spread of COVID-19!

Wear Masks

It's Mask Season! Masks are still strongly recommended for everyone, including in schools. Masks play a key role in reducing the spread of COVID-19, and will help keep your child and family safe, as well as protecting other children, teachers, and staff.

Get Tested

Parents/Guardians, please test your child for COVID-19 before they return to school so we can keep each other safe! Check with your school district about getting a free home test kit, or order a free set of 4 test kits, which come with 8 tests at <https://covid-19.acgov.org/testing>.

Stay Home When Sick

If your child feels sick, please keep them home while you wait for their test results.

Get Vaccinated

Be sure your child is up to date on their required immunizations for school entry and strongly consider getting your child vaccinated against COVID-19. [Vaccines Guidance & Resources | COVID-19 | Alameda County Public Health \(acgov.org\)](#)
