

COVID-19 TESTING TEMPORARY CHANGES

FOR COMMUNITY TESTING SITES

THINGS TO KNOW

01

PCR TESTING WILL PAUSE BRIEFLY

Alameda County is restructuring our health services to best meet your needs. **Starting August 1, 2023, PCR tests may not be available until further notice.**

02

FREE RAPID ANTIGEN TESTING IS STILL AVAILABLE

A rapid test is just as effective if used properly. If you have symptoms and test negative, isolate, mask in public, and test again every 1-2 days. You can pick up free OTC kits at any of our **community testing sites**. Visit bit.ly/Testingmap for locations. For more self-testing information please visit bit.ly/452Dz24.

03

IF YOU ARE INSURED, PLEASE VISIT YOUR HEALTHCARE PROVIDER

Reach out to your healthcare provider for your COVID-19 testing and treatment needs. Most providers are required to provide free testing.

04

IF YOU HAVE SYMPTOMS

If you have symptoms remember to wear a mask around others and follow **isolation & quarantine guidelines** at bit.ly/iandqguidance.
