For iPhone and Mac

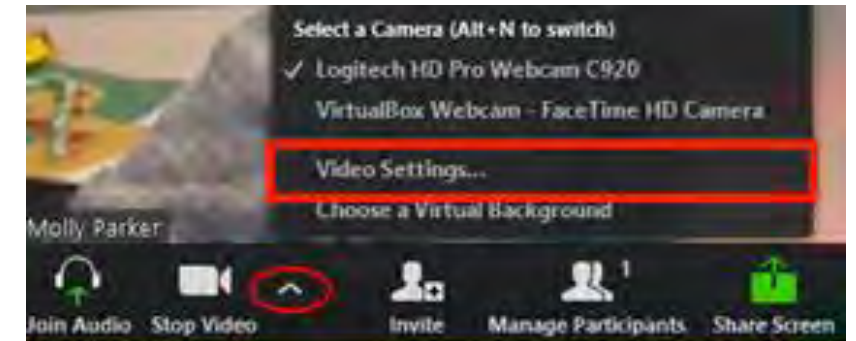

## Using Closed Captioning

- Click **Closed Caption** in the controls at the top or bottom of your screen
- After selecting Closed Caption, you will see the captioning at the bottom of your screen.
- If you need to adjust the caption size
  - Click on the arrow next to stop/start video and choose Video Settings
  - Click on Accessibility
  - Move the slider to adjust the caption size

## Como Usar los Subtítulos

- Haga click sobre Closed Caption en los controles arriba en su pantalla
- Después de seleccionar “Closed Caption”, verá los subtítulos al pie de su pantalla
- Si necesita ajustar el tamaño de los subtítulos
- Haga click sobre la flecha cerca de “stop/start video” y elija “Video Settings”
  - Haga click en “Accessibility”
  - Mueva el deslizador para ajustar el tamaño de los subtítulos

# Alameda County COVID-19 Vaccine Community Advisory Group

[COVAX@acgov.org](mailto:COVAX@acgov.org)

Meeting 10  
May 4, 2021

Alameda County  
Health Care Services Agency

Alameda County Public Health Department  
Celebrating Healthy People in Healthy Communities

# Agenda

1. Housekeeping & Welcome
2. Partner Updates

@Alameda County PODs through 4.30.21

Doses Administered by Age Group  
@Alameda County PODs through 4.30.21

# Coliseum Update

- Coliseum site experienced a rapid reduction in first dose appointments during the last 2 weeks of April – ~4k/day to ~400/day
- CalOES concluding its deployment on 5/9/21
- Appointments for second doses scheduled through 5/23/21
- HCSA planning to maintain the Coliseum site through 5/23/21 to complete second doses and close thereafter
- Proposed with Carbon Health, Native American Health Center, Lifelong, Bay Area Community Health, and La Familia to complete second doses

# CalOES/FEMA Mobile Trailers--Schedule

- 2 Trailers; 7 days per week
- April 12th-May 9<sup>th</sup>, 2021
- Up to 500 doses per day
- Pfizer
- Taking Drop-in appointments
- Almost all in HPI target ZIPs (Support Life only exception)
- Alameda County will provide 2<sup>nd</sup> doses for 2 full weeks of trailers with Clinical Partners

## County-Coordinated with:

1. Native American Health Center
2. La Familia Counseling Services
3. Lifelong Medical
4. Bay Area Community Health

Week	Mobile Vaccine Clinic 1	Mobile Vaccine Clinic 2

## Feedback on J&J factsheet from CDPH:

- Supplemental local messaging needed
- Further simplify language for accessibility and readability
- Infographic would be helpful
- Similar materials needed for Pfizer and Moderna (to not single out J&J)

## CDPH has updated materials:

- New webpage: [Get the Facts on Vaccines](#)
- New "Choosing the best vaccine for you" factsheet
- New Pfizer & Moderna "Risks and Benefits" factsheets

### Choosing the COVID-19 Vaccine that's Right for You

Three COVID-19 vaccines have been authorized by the FDA for emergency use given the severity of the COVID-19 pandemic. Understand the benefits and risks to help you decide which vaccine is right for you.

#### COVID-19 Can Cause Severe Illness

COVID-19 is caused by a coronavirus that spreads in the air, especially when an infected person speaks, sneezes or coughs indoors. COVID-19 can cause severe illness, pneumonia, and death, and we are still learning about its long-term effects.

#### Vaccination is Recommended for People Age 16+

The CDC recommends that all individuals age 16 and older receive COVID-19 vaccination. It is your choice to get vaccinated, and you can choose which vaccine you receive. Your decisions will not change your standard medical care.

#### Vaccine Options

The three vaccines currently authorized and recommended in the U.S. to prevent COVID-19 are:

- Pfizer-BioNTech (2 doses, 21 days apart)
- Moderna (2 doses, 28 days apart)
- Johnson & Johnson (1 dose)

#### Benefits of Getting the Vaccine

All vaccines currently available are proven to be safe and effective at preventing COVID-19. Vaccination helps protect people from getting sick or severely ill with COVID-19 and might also help protect people around them. To receive the most protection, people should receive all recommended doses of the vaccine. Vaccinating as many people as possible will help us all get past this pandemic.

#### More Information

If you need help making an appointment or have questions, call (833) 422-4255 or visit [www.vaccinateall58.com](http://www.vaccinateall58.com) or [www.cdph.ca.gov](http://www.cdph.ca.gov).

#### Risks Associated with Getting the Vaccine

- **Common Side Effects** (All COVID-19 vaccines) A few days after vaccination, you might have pain or swelling at the injection site or headache, fatigue, muscle aches, nausea, or fever. These are normal signs that your body is building protection.
- **Rare Severe Allergies** (All COVID-19 vaccines) Rare, sudden allergic reactions may occur within a few minutes to one hour after getting a dose, including an itchy rash or hives, trouble breathing or swallowing, swelling of the face or throat, dizziness, stomach upset, or fast pulse.
- **Rare Blood Clots** (Johnson & Johnson COVID-19 vaccine) The first few weeks following the Johnson & Johnson vaccination, a small number of individuals have developed very rare blood clots. These are clots of blood vessels in the brain, abdomen, or legs, along with low levels of cells that stop bleeding, and may lead to serious illness or death. Most people who have developed these blood clots have been women under age 50. Their symptoms began 1–2 weeks after vaccination. To date, these rare blood clots have not been seen after the Pfizer or Moderna vaccines.

#### Seeking Care

Seek medical attention right away, or call 9-1-1, if you have severe symptoms after vaccination, such as shortness of breath, chest pain, leg swelling, persistent abdominal pain, severe headaches, blurred vision, many bruises or tiny blood spots under your skin. Call your vaccination provider or healthcare provider if you have any symptoms that bother you or do not go away after a few days.

# GETTING A VACCINE IN ALAMEDA COUNTY

## WHERE CAN I GET ONE?

### Alameda County Sites

Sign up at [bit.ly/AlCoSignUp](https://bit.ly/AlCoSignUp)

- Alameda County Fairgrounds
- Fremont High near the Fruitvale and Hayward Adult School near Ashland, Cherryland, and Hayward Acres. Drop in appointments available for people who live in these zip codes: 94601, 94603, 94605, 94606, 94607, 94621, 94541, 94544, 94545, 94577, 94578, 94580

### OAKLAND-ALAMEDA COLISEUM SITE

Sign up at [myturn.ca.gov](https://myturn.ca.gov) or  
by calling 833-422-4255

### BUCHANAN PARKING AT GOLDEN GATE FIELDS

Sign up at [bit.ly/BerkVax](https://bit.ly/BerkVax)

# GETTING A VACCINE IN ALAMEDA COUNTY

## YOU CAN ALSO FIND AN APPOINTMENT BY:

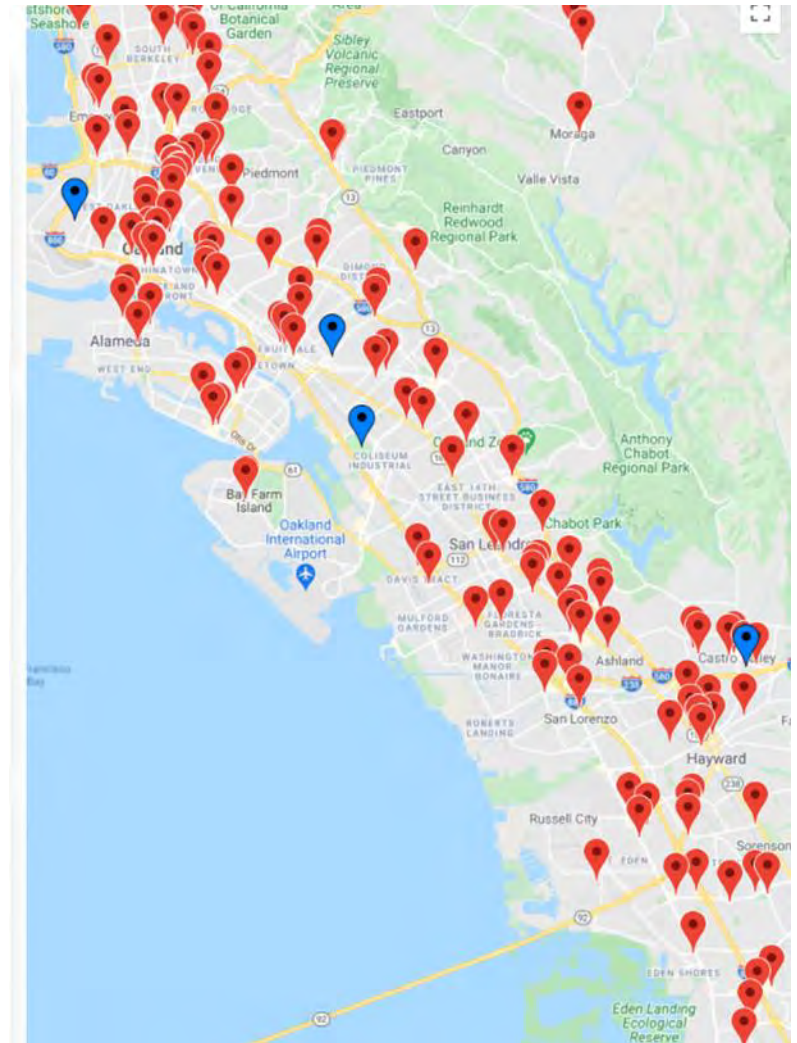

- Checking with your current health provider
- Booking appointments at CVS, Rite Aid & Safeway
- Call 510-208-4VAX (510-208-4829) if you need support making an appointment in Alameda County

## WHAT DO I NEED TO KNOW?

- All available & approved vaccines are safe and highly effective.
- Bring: photo ID (does not need to be government-issued), proof of home address if not on ID & appointment confirmation

Vaccinate.CA map on our website

# 4. County Community Strategy

# Shifts in Vaccination Strategy

- HCSA's multi-pronged strategy includes Mega PODs, health care partnerships, community PODs, and mobile pop-ups
- Mobile pop-ups and community PODs are popular, especially when paired with community partners and trusted messengers
- Demand for appointments declining with increasing overall vaccination rates
- HCSA planning to:
  - Phase out Mega PODs
  - Increase community-based strategies

# Evolving Vaccination Strategy

Alameda County Vaccination Options

**Current** —————→ **Longer Term**

Community PODs = County supported PODs, up to 2,000 doses per day  
Mega PODs = 4,000 – 6,000 doses per day  
Mobile pop-ups = County supported partnerships with vendors and community organizations; up to 500 doses per pop-up  
Health Care System = clinics, hospitals, pharmacies, and large health systems

# COVID-19 Vaccine for 12-15 year-olds

- FDA authorization expected shortly for Pfizer vaccine for ages 12-15
  - 100% efficacy, safe, and well-tolerated in trial of 2,260 children
- HCSA/ACPHD and ACOE preparing to support local distribution:
  - School and district partnerships
  - Clinical providers
  - Pharmacies
  - Mass vaccination sites/Community PODs
  - Storage requirements and packing considerations impact distribution
- Next steps: engage stakeholders; convene CAG workgroup; prepare communication materials; explore state support resources

# Community Vaccine Sentiment Surveys

- Oakland Frontline Healers
- East Bay Community Law Center
- HCSA Public Health Department
